

NATURE EXPLORER DETECTIVE GAME

GUESS WHAT'S IN THE KIT

Join Alec and Flint, the young detectives from "Mystery on the Sidewalk," in this fun and interactive guessing game! Kids aged 3 to 8 can step into the shoes of their favorite sleuths and guess what special items are hidden in the detective kit. Some items are real tools for solving mysteries, while others are silly surprises. This activity encourages children to think critically and use their imagination while having loads of fun.

How to play::

- Kids will be given a list of items to guess from, including both real and silly ones.
- They will circle the items they think are really in the detective kit and cross out the ones that don't belong.
- During the classroom or reading event, the detective kit will be present, and each item will be pulled out to reveal what's inside.

This engaging activity is perfect for sparking curiosity and excitement in young detectives!
